# A Letter From Our Directors

Good evening ladies and gentlemen,

It is our distinct pleasure to welcome you to the West Shore Classic marching band show, hosted by the West Shore Music Boosters and the West Shore School District.

Tonight's show is a culmination of hours of preparation and practice in order to entertain and compete. Let's show all of the students performing tonight just how much we appreciate their time, energy, and musical efforts. Be sure to celebrate each and every band here tonight with your most enthusiastic applause. And keep in mind the many parents who work countless hours behind the scenes as well.

We thank you for joining us here at West Shore as we celebrate music and the students who continue to breathe new life into the activity. We hope you enjoy your stay.

Bring on the bands!

Sincerely,

Robert Starrett & George Clements

Directors, West Shore Marching Band

## West Shore Mini Guard

### Friday Night Lights

The West Shore Minis consists of 1st through 7th graders and was created to introduce West Shore students to colorguard earlier on in their education. The minis learn the basics of colorguard, as well as the values and traditions of the West Shore Colorguard Program.

Their 2023 Outdoor program is entitled “Friday Night Lights” taking you on the journey of what it’s like to be a player in Americas #1 sport, football.

The West Shore Colorguard is under the direction of Marianna Fernbaugh and the Minis program is led by Kiernan Huss. Additional staff includes Kim Corle and student leadership includes Elise Sengoz.

The minis would like to thank their staff, teachers, and parents, as well as the rest of the West Shore community for their support. They are proud to be led by the Varsity members and hope to follow in their footsteps in years to come.

### The Lungs of the Earth

The West Shore Marching Band is proud to present their 2023 production titled, “The Lungs of the Earth”. This nickname has often been associated with the Amazon Rainforest because of its vast canopy of trees. The Amazon Rainforest is the largest rainforest in the world, larger than the next two largest rainforests combined. It spans over 6.9 million square kilometers and boasts the largest river, by volume, in the world. Our show explores the various elements of this natural wonder as well as the representation of the human breath, and what it means to be universally connected to nature and our surroundings.

**Show Selections:** Original music

**Directors:** Robert Starrett
